

R E M A R K S

Claims 1-3 are pending in this application, with claim 1 amended herein.

Initially, the Examiner is thanked for taking the time to conduct an interview with the undersigned wherein the amendments presented herein were discussed.

In the office action, claims 1-3 are rejected under 35 USC 103(a) as unpatentable over U.S. Patent 6,888,837 to Cunningham in view of U.S. Patent No. 7,016,980 to Mayer.

During the interview the Examiner suggested an amendment based on the disclosure at page 30 line 12, wherein a specific order of operations wherein the mapping of the information address to the address to which it will be translated is undertaken before the translation occurs. While a similar recitation appeared in the claims as previously presented, it is believed that the amendments to claim 1 clarify further this recitation.

Thus it is submitted that independent claim 1 patentably distinguishes over the relied upon portions of Cunningham and is allowable. Claims 2 and 3 depend from independent claim 1 and are allowable therewith.

Conclusion

In view of the remarks set forth above, this application is in condition for allowance which action is respectfully requested. However, if for any reason the Examiner should consider this application not to be in condition for allowance, the Examiner is respectfully requested to telephone the undersigned attorney at the number listed below prior to issuing a further Action.
